PROFESSIONAL PROFILE

Senior Project Manager and Ontario-licensed Professional Engineer with nearly 18 years across Qatar, Saudi Arabia, Canada and Egypt. Experience with ECG, Wood and WSP leading multidisciplinary engineering delivery, project controls and commercial administration on major utilities, infrastructure, rail and development projects. Manage consultancy scope across concept and detailed design, tendering and construction support, including existing-asset upgrades. Coordinate international engineering teams, client requirements, technical interfaces, budgets, schedules and change control, supported by an MBA and a civil and structural engineering foundation.

CORE EXPERTISE

Project delivery: Project Execution Planning; Design Management; Multidisciplinary Coordination; Interface Management; Resource Planning; Construction Support.

Controls and commercial: Scope Management; Change Control; Contract Administration; Cost and Budget Control; Planning and Scheduling; Progress Reporting; Risk Management; Variations and Claims.

Quality and safety: QA/QC Coordination; Constructability Reviews; HSE Coordination; HAZOP/CHAZOP and SIL Study Coordination; Deliverable Reviews and Comment Closeout.

Customer and procurement: Stakeholder Management; Customer Requirements; Procurement Support; Tender Evaluation; Subconsultant Coordination; Contract Negotiation; Business Development Support.

PROFESSIONAL EXPERIENCE

Engineering Consultants Group

Feb 2025 - Present

Senior Project Manager

Doha, Qatar

Diriyah Gate II KSU Utilities and Facilities Relocation

Riyadh, Saudi Arabia | Overall EPC project value: USD 1.45 billion

- **Team and design leadership.** Lead ECG's design-management scope for utility relocation and 25 specialised utility and process facilities; set discipline priorities and coordinate 185+ engineers across Qatar, Saudi Arabia, Egypt, Lebanon and India.
- **Customer and scope management.** Represent ECG in coordination with DGDA, Jacobs, AECOM, CRCC and KSU; clarify requirements, resolve scope gaps and manage civil, structural, MEP and utilities interfaces.
- **Cost and change control.** Manage consultancy invoicing, variations and scope changes; assess cost and programme impacts and coordinate commercial matters with CRCC.
- **Schedule and risk management.** Monitor design milestones and submission status, report progress and risks, and coordinate discipline actions to resolve delays and interface issues.
- **HSE and quality coordination.** Coordinate HAZOP/CHAZOP and SIL specialist studies, multidisciplinary design reviews, technical comments and IFC documentation closeout.

Jabal Omar S7 Hotel and Serviced Apartment Towers

Makkah, Saudi Arabia | Three high-rise towers | Permitted BUA: approximately 116,600 m²

- **Design and change management.** Lead ECG's structural and MEP scope, specialist interfaces and authority coordination; assess scope changes and associated fee and programme impacts.
- **Stakeholder coordination.** Align the developer, architect, Architect of Record, operator and specialists on life safety, vertical transportation, utilities and constructability.

PROFESSIONAL EXPERIENCE

The Muzzo Group Companies Unified
Oct 2023 - Feb 2025

Senior Project and Development Manager — Greater Toronto and Hamilton Area, Canada

2150 Lakeshore Mixed Use Development

Etobicoke, Ontario | Overall development value: approximately CAD 8 billion

Developer-side planning and design coordination for a 30-acre, six-phase development with 28 buildings, approximately 7,800 residential units and 1.3 million sq. ft. of office and retail space.

- **Project planning and risk.** Managed engineering, cost, legal and environmental consultant interfaces, proposal evaluation and risk reviews across buildings, infrastructure and transit.
- **Procurement support.** Evaluated technical and commercial proposals for a grade separation tunnel; reviewed box-jacking methodology, construction staging, constructability and delivery risks.
- **Design and stakeholder interfaces.** Led planning, design coordination and proposal reviews for Park Lawn GO Station buildings, platforms, canopies and pedestrian tunnel; coordinated Hatch, EXP, Altus and Cassels.
- **Integrated delivery.** Coordinated the TTC streetcar loop, station, public streets, access and utilities with Arup, LEA, Arcadis and IBI Group; reviewed tunnel proposals with specialist consultants and contractors.

WSP Canada
Jul 2022 - Sep 2023

Senior Project Manager — Greater Toronto and Hamilton Area, Canada

- **Multidisciplinary design management.** Led design coordination across multiple consultants, 10+ disciplines and public agencies for Long Branch GO Station and Burloak Grade Separation, a CAD 760 million Design and Build project.
- **Existing-asset interfaces.** Coordinated design delivery for the CAD 54 million Mimico Yard upgrade, managing consultant, subconsultant and public-agency interfaces.
- **Cost and schedule control.** Managed progress reporting, schedule updates, consultant costs and invoicing; administered variations and claims and coordinated responses to delivery issues.
- **Quality and construction support.** Coordinated requests for information, non-conformance reports, site instructions and change orders, linking design responses with contractor requirements.

Wood PLC
Oct 2020 - Jul 2022

Senior Project Manager — Greater Toronto and Hamilton Area, Canada

- **EPC design delivery.** Led overall design delivery for the CAD 460 million Rutherford GO Station Expansion across consultants, 10+ disciplines, agencies and the contractor; served as the principal contact for Wood's design teams and contractor design enquiries.
- **Contract and environmental coordination.** Managed contract administration, Engineer of Record reviews and environmental inspection services for the CAD 18 million Barrie Rail Corridor Widening at King City.
- **Preliminary design management.** Coordinated 10+ disciplines through preliminary and baseline design to approximately 30% completion for the CAD 60 million Union Station and Queens Quay LRT project.
- **Rail facility expansion.** Coordinated design for the CAD 22 million Niagara Falls Layover Expansion on the Grimsby Subdivision.

PROFESSIONAL EXPERIENCE

Engineering Consultants Group
Oct 2013 - Oct 2020

Project Manager
Doha, Qatar

Managed multidisciplinary design coordination, programme reporting, progress and cost tracking, tender evaluation and contractor submissions across infrastructure, transport, hospitality and public-building projects.

- **Detailed design and construction support.** Delivered FIFA World Cup Qatar 2022 training-site design consultancy through concept, detailed design, tender and construction stages on projects valued at USD 80 million; additional consultancy exposure to tournament overlay facilities.
- **Utilities and transport infrastructure.** Managed design and construction support for three bus depots accommodating approximately 3,850 buses, including EV charging and supporting facilities, within the USD 120 million Qatar Public Bus Infrastructure Programme.
- **Rail and authority coordination.** Delivered station-area planning and design-stage supervision for seven Doha Metro stations and supported Qatar Rail's Umm Ghuwailina transit-oriented development.
- **Consultancy delivery.** Managed design consultancy services for Sofitel and Novotel hotels (USD 210 million) and the Ministry of Interior Headquarters and Officers' Club (USD 180 million).

EARLIER EXPERIENCE

Senior Structural Engineer
Dec 2008 - Oct 2013

Structural Design and Construction Support
Cairo, Egypt and Doha, Qatar

Delivered structural design and tender documentation, supervised engineering teams, coordinated architectural and MEP interfaces, and supported construction queries.

Power plant experience. Structural engineering project exposure includes El Shabab and Damietta power plants, Egypt.

Other selected projects. Anantara Island Resort; five Qatar healthcare centres; Wadi Owair Horse Stables; Barwa City, New Cairo; Danat Al Emarat Hospital, Abu Dhabi.

PROFESSIONAL REGISTRATIONS

Professional Engineer P.Eng. | Professional Engineers Ontario, Canada

UPDA Registration Grade A | Qatar

EDUCATION

Master of Business Administration MBA | University of Aberdeen, UK | 2020

Bachelor of Science in Civil Engineering | Assiut University, Egypt | 2008

Diploma in Construction Engineering and Project Management | AASTMT, Egypt | 2012

Diploma in Major Events Management | SDA Bocconi, Milan and Doha | 2020

DIGITAL DELIVERY AND LANGUAGES

Project tools: Microsoft Project; BIM coordination; multidisciplinary design reviews; programme tracking; technical and commercial reporting.

AI capability: ChatGPT for presentations, report drafting, technical and commercial submissions, and decision-support analysis.

Languages: Arabic - native; English - full professional proficiency.
